Petro/Chem Engineer

1969 ANNUAL INDEX FOR VOLUME XLI

SUBJECT INDEX

TITLE OF ARTICLE AND AUTHOR	MONTH	Pg
AIR POLLUTION		
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
No Quick Pollution Solution	March	43
API Invests $3-Million in 1969 Pollution Research, Richard Martin	March	48
Built on Skids, Shipped to Site, A. E. Chute	April	16
Ashland's Pollution Program Depends on People	April	22
Get Your Money's Worth from a Sulfur Recovery Plant, Harold B. Warnick	Aug.	30
AUTOMATION		
The HPI Profits From Innovations in Service, David J. Mistrot	Feb.	9
Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & Giovanni Rozzi	June	18
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers	Oct.	13
BASIC REFINING PROCESSES HANDBOOK		
Crude Distillation, Andrew A. Kutler	May	9
Fluid Catalytic Cracking with Molecular Sieve Catalysts	May	12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth	May	16
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr.	May	21
Hydrocracking/Unicracking - JHC	May	30
Hydrocracking/The H-Oil Process	May	39
Sulfuric Acid Alkylation with Effluent Refrigeration	May	53
HF Alkylation with Isostripping	May	59
COMPRESSORS		
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
The HPI Profits From Innovations in Service, David J. Mistrot	Feb.	9
Pipeline Makes Hill Chemical's Ammonia Plant Competitive	Feb.	18
Fundamentals of Engineering HPI Plants with the Digital Computer, M. H. Hyman	Feb.	30
Continuous Tables, "Moisture Content of Compressed Air"	March	45
Estimate Fan Drive Sizes	March	46
Economics of the Maxi-Plants, Peter W. Sherwood	Sept.	12
Equipment Problems Areas in the Maxi-Plant Concept, Harold J. Dubberley	Sept.	16
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
COMPUTERS		
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & G. Rozzi	June	18
Fundamentals of Engineering HPI Plants with the Digital Computer, Ch. 5: Reactor Models, M. H. Hyman	June	46
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
Fundamentals of Engineering HPI Plants with the Digital Computer, Ch. 5: Reactor Models (Part 2) M. H. Hyman	Sept.	31
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers	Oct.	13
How to Use Computers Discussed at NPRA	Dec.	30
COOLING TOWERS		
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
CONSTRUCTION PROJECTS		
Pipeline Makes Hill Chemical's Ammonia Plant Competitive	Feb.	18
Built on Skids, Shipped to Site, A. E. Chute	April	16
Ashland's Pollution Program Depends on People	April	22
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers	Oct.	13
Lummus Film Details Unique Prepackaged Refinery Construction	Nov.	18
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers	Dec.	22
CONTINUOUS TABLES		
Steam to Carbon Ratio For Reformer Operations, Bill Sisson	Dec.	27
Determine Superheat Steam Flow by Nomograph, Bill Sisson	Dec.	28
Air Flow in Steel Pipe, F. Caplan	Jan.	37
Saturated Steam Flow in Pipes, F. Caplan	Jan.	38
Moisture Content of Compressed Air	March	45
Estimate Fan Drive Sizes	March	46
Solution of Quadratic Equations, F. Caplan	April	37
Capacity Cylindrical Tanks, F. Caplan	April	38
DCF Rate of Return From Book Return, Benjamin Eisenberg	Sept.	41
CONTROLS		
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
The HPI Profits from Innovations in Service, David J. Mistrot	Feb.	9
CONVERSIONS		
Solution of Quadratic Equations, F. Caplan	April	37
Capacity Cylindrical Tanks, F. Caplan	April	38
Steam to Carbon Ratio for Reformer Operations, Bill Sisson	Dec.	27

TITLE OF ARTICLE AND AUTHOR	MONTH	Pg
CORROSION		
Air Flow in Steel Pipe, F. Caplan	Jan.	37
Which Type 304 is Right for you?, Edward J. Rozic, Jr.	April	20
COST ESTIMATION		
Gas Processors Head for the 70's, Ron Cannon	Dec.	9
Demand - Pipelines Team for Permian Ethane Economics, Otto Wetzel, Jr.	Dec.	13
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
Fabrication Shop Check List Guides Kellogg, Richard Martin	April	13
Built on Skids, Shipped to Site, A. E. Chute	April	16
Absorbent Key to UOP's New Paraxylene Process	April	53
Crude Distillation, Andrew A. Kutler	May	9
Fluid Catalytic Cracking with Molecular Sieve Catalysts	May	12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth	May	16
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr.	May	21
Hydrocracking/Unicracking - JHC	May	30
Hydrocracking/The H-Oil Process	May	39
Sulfuric Acid Alkylation with Effluent Refrigeration	May	53
HF Alkylation with Isostripping	May	59
Don't Sell That Outmoded Refinery - Give it to Charity, V. G. Forzley	June	14
Feedstock Contracts to Low Bid, Peter S. Chambers	July	10
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis	Aug.	12
Get Your Money's Worth from a Sulfur Recovery Plant, H. B. Warnick	Aug.	30
Economics of the Maxi-Plants, Peter W. Sherwood	Sept.	12
Equipment Problems Areas in the Maxi-Plant Concept, Harold J. Dubberley	Sept.	16
DCF Rate of Return from Book Return, Benjamin Eisenberg	Sept.	41
How to Plan for Plant Revamps, L. Van Amerongen	Nov.	24
CRYOGENICS		
Gas Processing in '69 Outlook is Confused, Ronald E. Cannon	Jan.	27
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
DESIGN/CONSTRUCTION		
Booming HPI Grapples Vexing Problems, Peter S. Chambers	Jan.	6
Pipeline Makes Hill Chemical's Ammonia Plant Competitive	Feb.	18
Fabrication Shop Check List Guides Kellogg, Richard Martin	April	13
Built on Skids, Shipped to Site, A. E. Chute	April	16
Ashland's Pollution Program Depends on People	April	22
Don't Sell That Outmoded Refinery - Give it to Charity, Victor G. Forzley	June	14
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis	Aug.	12
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers	Oct.	13
Plant Designers Can Cut Maintenance Costs, W. H. Weiss	Nov.	12
Lummus Film Details Unique Prepackaged Refinery Construction	Nov.	18
How to Plan for Plant Revamps, L. Van Amerongen	Nov.	24
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers	Dec.	22
DESIGN DATA AND METHODS		
New Cat Reforming Catalyst Goes Commercial	Jan.	32
Air Flow in Steel Pipe, F. Caplan	Jan.	37
Saturated Steam Flow in Pipes, F. Caplan	Jan.	38
The HPI Profits from Innovations in Service, David J. Mistrot	Feb.	9
Pipeline makes Hill Chemical's Ammonia Plant Competitive	Feb.	18
Get the Most from your Steam Trap Dollar, R. T. Dewhirst	Feb.	23
Moisture Content of Compressed Air	March	45
Estimate Fan Drive Sizes	March	46
Built on Skids, Shipped to Site, A. E. Chute	April	16
Which Type 304 is Right for You, Edward J. Rozic, Jr.	April	20
Capacity Cylindrical Tanks, F. Caplan	April	38
Absorbent Key to UOP's New Paraxylene Process	April	53
Crude Distillation, Andrew A. Kutler	May	9
Fluid Catalytic Cracking with Molecular Sieve Catalysts	May	12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth	May	16
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr.	May	21
Hydrocracking/Unicracking - JHC	May	30
Hydrocracking/The H-Oil Process	May	39
Sulfuric Acid Alkylation with Effluent Refrigeration	May	53
HF Alkylation with Isostripping	May	59
Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & Giovanni Rozzi	June	18
Fundamentals of Engineering HPI Plants with the Digital Computer, Ch. 5: Reactor Models, M. H. Hyman	June	46
Have you looked at Finned Tubing Applications, Jerry E. Ryan	Aug.	23
Get Your Money's Worth from a Sulfur Recovery Plant, H. B. Warnick	Aug.	30
Economics of the Maxi-Plants, Peter W. Sherwood	Sept.	12
Equipment Problems Areas in the Maxi-Plant Concept, H. J. Dubberley	Sept.	16
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey	Sept.	20
Fundamentals of Engineering HPI Plants with the Digital Computer, Ch. 5: Reactor Models (Part 2) M. H. Hyman	Sept.	31
Plant Designers Can Cut Maintenance Costs, W. H. Weiss	Nov.	12
Gas Processors Head for the 70's, Ron Cannon	Dec.	9
Demand - Pipelines Team for Permian Ethane Economics, Otto K. Wetzel	Dec.	13
Steam to Carbon Ratio for Reformer Operations, Bill Sisson	Dec.	27
Determine Superheated Steam Flow by Nomograph, Bill Sisson	Dec.	28

TITLE OF ARTICLE AND AUTHOR — MONTH — Pg

DESIGN HINTS

Get The Most from your Steam Trap Dollar, R. T. Dewhirst — Feb. 23
Moisture Content of Compressed Air — March 45
Built on Skids, Shipped to Site, A. E. Chute — April 16
Which Type 304 is Right for you?, Edward J. Rozic, Jr — April 20
Crude Distillation, Andrew A. Kutler — May 9
Fluid Catalytic Cracking With Molecular Sieve Catalysts — May 12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth — May 16
Hydrocracking/Unicracking - JHC — May 30
Have you looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23

DIRECTORIES

Petro/Chem Engineer's Fifth Annual Petrochemical Census — March 12
Fifth Annual International Engineering/Construction/Service Firm Directory — June 22
Specialty Product Index — Oct. 53
Third Annual Refining Census — Oct. 23
State Guide to Plants & Capacities — Oct. 53

DESULFURIZATION

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
Built on Skids, Shipped to Site, A. E. Chute — April 16
Ashland's Pollution Program Depends on People — April 22
Hydrocracking/Unicracking - JHC — May 30
Hydrocracking/The H-Oil Process — May 39
Get Your Money's Worth from a Sulfur Recovery Plant, H. B. Warnick — Aug. 30
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers — Oct. 13

ENERGY

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
Energy Concept Takes New Shape, Ernestine Adams — July 7
Production Technology Grows, J. E. Kastrop — July 7
Oil Men Advance Energy Exploration, George E. Crosby — July 9
Pipelines: Transporters of Energy, Frank H. Love — July 9
Rigs Adapting to All-Energy Hunt, John Scott — July 10
Feedstock Contracts to Low Bid, Peter S. Chambers — July 10
You Don't Sell Gas; You Sell Energy, Dean Hale — July 13
E/C Firms Views New Energies, W. F. Bland — July 18
Buy The Energy Industry to Hold, Richard Martin — July 20
Trans-Alaska: 4-Ft By $1 Billion, Patrick E. Bailey — July 20
Refiners' Course in the 70's, William F. Bland — Oct. 19

ENGINEERING/CONSTRUCTION FIRMS

Pipeline Makes Hill Chemical's Ammonia Plant Competitive — Feb. 18
Fabrication Shop Check List Guides Kellogg, Richard Martin — April 13
Don't Sell That Outmoded Refinery - Give it to Charity, V. G. Forzley — June 14
Fifth Annual International Engineering/Construction/Service Firm Directory — June 22
E/C Firms View New Energies, W. F. Bland — July 18
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis — Aug. 12
Get Your Money's Worth from a Sulfur Recovery Plant, H. B. Warnick — Aug. 30
Economics of the Maxi-Plants, Peter W. Sherwood — Sept. 12
Equipment Problems Areas in the Maxi-Plant Concept, H. J. Dubberley — Sept. 16
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers — Oct. 13
Lummus Film Details Unique Prepackaged Refinery Construction — Nov. 18
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22

ETHANE RECOVERY

Gas Processing in '69 Outlook is Confused, Ronald E. Cannon — Jan. 27
Gas Processors Head for the 70's, Ron Cannon — Dec. 9
Demand - Pipelines Team for Permian Ethane Economics, Otto K. Wetzel — Dec. 13
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22

EQUIPMENT SELECTION

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
Get the Most from your Steam Trap Dollar, R. T. Dewhirst — Feb. 23
Fabrication Shop Check List Guides Kellogg, Richard Martin — April 13
Built on Skids, Shipped to Site, A. E. Chute — April 16
Which Type 304 is Right for You?, Edward J. Rozic, Jr — April 20
Ashland's Pollution Program Depends on People — April 22
Capacity of Cylindrical Tanks, F. Caplan — April 38
Crude Distillation, Andrew A. Kutler — May 9
Fluid Catalytic Cracking with Molecular Sieve Catalysts — May 12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth — May 16
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr — May 21
Hydrocracking/Unicracking - JHC — May 30
Sulfuric Acid Alkylation with Effluent Refrigeration — May 53
HF Alkylation with Isostripping — May 59
Have You Looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23
Get Your Money's Worth from a Sulfur Recovery Plant, Harold B. Warnick — Aug. 30
Economics of the Maxi-Plants, Peter W. Sherwood — Sept. 12
Equipment Problems Areas in the Maxi-Plant Concept, Harold J. Dubberley — Sept. 16
What Readers Want From Valve Manufacturers — Sept. 28
Plant Designers Can Cut Maintenance Costs, W. H. Weiss — Nov. 12
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22

FEEDSTOCKS

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
Gas Processing in '69 Outlook is Confused, Ronald E. Cannon — Jan. 27
The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
Petrochems Making Comeback in '68, William F. Bland — March 9
HPI State Guide Shows Widening Plant Location Trend, Richard Martin — March 47
Hydrocracking/The H-Oil Process — May 39
Feedstock Contracts to Low Bid, Peter S. Chambers — July 10
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis — Aug. 12
Economics of the Maxi-Plants, Peter W. Sherwood — Sept. 12
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20

TITLE OF ARTICLE AND AUTHOR — MONTH — Pg

Refiners' Course in the 70's, William F. Bland — Oct. 19
Gas Processors Head for the 70's, Ron Cannon — Dec. 9
Demand - Pipelines Team for Permian Ethane Economics, Otto Wetzel Jr — Dec. 13

FUNDAMENTALS OF ENGINEERING THE HPI PLANT

Fundamentals of Engineering HPI Plants with the Digital Computer, Ch. 4 - Mathematics for Physical and Thermodynamic Properties, Part 1 — Feb. 30
Ch. 5, Reactor Models, M. H. Hyman — June 46
Ch. 5, Part 2, Reactor Models, M. H. Hyman — Sept. 31

FURNACES

The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
Have you looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20

GAS PLANT OPERATION

Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & Giovanni Rozzi — June 18
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22

GAS PROCESSING

Gas Processing in '69 Outlook is Confused, Ronald E. Cannon — Jan. 27
Built on Skids, Shipped to Site, A. E. Chute — April 16
Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & Giovanni Rozzi — June 18
Gas Processors Head for the 70's, Ron Cannon — Dec. 9
Demand - Pipelines Team for Permian Ethane Economics, Otto K. Wetzel — Dec. 13
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22

HANDBOOKS

Crude Distillation, Andrew A. Kutler — May 9
Fluid Catalytic Cracking with Molecular Sieve Catalysts — May 12
Moving Bed Catalytic Cracking, Everett E. Winfree & Raymond Mewirth — May 16
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr — May 21
Hydrocracking/Unicracking - JHC — May 30
Hydrocracking/The H-Oil Process — May 39
Sulfuric Acid Alkylation with Effluent Refrigeration — May 53
HF Alkylation with Isostripping — May 59

HEAT EXCHANGERS

Have you looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23
Equipment Problems Areas in the Maxi-Plant Concept, Harold J. Dubberley — Sept. 16

HEAT TRANSFER

Have you looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20

HYDROGEN

Reforming Platforming with the New Catalyst, D. P. Thornton, Jr — May 21
Hydrocracking/The H-Oil Process — May 39
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers — Oct. 13

INSTRUMENTATION/CONTROL

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers — Oct. 13

LABOR

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
Pipeline makes Hill Chemical's Ammonia Plant Competitive — Feb. 18
Petrochems Make Comeback in '68, William F. Bland — March 9
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis — Aug. 12
Marathon Spends $100-Million for More Gasoline, Peter S. Chambers — Oct. 13
Refiners' Course in the 70's, William F. Bland — Oct. 19
How to Plan for Plant Revamps, L. Van Amerongen — Nov. 24

MAINTENANCE

The HPI Profits From Innovations in Service, David J. Mistrot — Feb. 9
Plant Designers Can Cut Maintenance Costs, W. H. Weiss — Nov. 12
How to Plan for Plant Revamps, L. Van Amerongen — Nov. 24

MATERIALS OF CONSTRUCTION

Booming HPI Grapples Vexing Problems, Peter S. Chambers — Jan. 6
Which Type 304 is Right for You?, Edward J. Rozic, Jr — April 20
Reforming Platforming with the New Catalyst, D. P. Thornton, Jr — May 21
Sulfuric Acid Alkylation with Effluent Refrigeration — May 53
Compare Butadiene Recovery Methods Processes, Solvents, Economics, Dr. Thomas Reis — Aug. 12
Have you looked at Finned Tubing Applications, Jerry E. Ryan — Aug. 23
World's First Billion Pound Ethylene Plant Goes Onstream, John G. Earl & R. D. Harvey — Sept. 20

NATURAL GAS LIQUIDS

Gas Processing in '69 Outlook is Confused, Ronald E. Cannon — Jan. 27
Built on Skids, Shipped to Site, A. E. Chute — April 16
Computer Control Cuts Reflux Ratios, Vincenzo Gervasio & Giovanni Rozzi — June 18
Gas Processors Head for the 70's, Ron Cannon — Dec. 9
Demand - Pipelines Team Permian Ethane Economics, Otto K. Wetzel, Jr — Dec. 13
Sun's Fordoche Plant Designed for 73% Ethane Recovery, Peter S. Chambers — Dec. 22
